Young people in the UK are currently three times more likely to be unemployed than adults and while more than half of the population would like to start their own business, less than 5% actually do.

During last year's Global Entrepreneurship Week, over 523 organisations reached 279,000 people through 2,305 activities in the UK alone. This year, 115 countries are participating.

MyBnk has worked with 60,000 young people to help them develop the skills, knowledge and confidence to effectively manage their money and make enterprising choices.
