

# Case Study

Colinton Primary School - P4 and P6

## Money Twist P3-6

3/5 primary school pupils struggle with basic personal finance terminology and only 1/3 can delay spending gratification.

Money Twist P3-6 is MyBnk's flagship financial education programme for primary schools.

Led by experts and backed up by teacher and family resources, the interactive programme helps children become informed consumers, savvy savers, and mindful spenders from an early age.

### Key Facts

Format: 3 X 75 minute sessions delivered across 6 weeks- 1 X Teacher Resource Pack - 1 X Family Activity Pack.

Target group: 7-11 year olds.

Group size: 12-30 young people.

### Atiksh, 7

*"MyBnk taught us about savings accounts and current accounts. A current account is when you can get the money now. A savings account is when you save up for something, like a holiday or a house.*

*There are debit cards and credit cards. The credit card is when you get money from the bank and then you pay them. The debit card is when you're using your own money.*

*We learned to always save your money in case you can't pay for something that's more important than the other things."*

### Eden, 10

*"I didn't know that about APR before - it shocked me how much it was.*

*MyBnk made me think a bit more about how I'm using my money and spending it. Usually I'm pretty good with it, but after the first session we talked about putting money away, so I think I'm going to do that."*

### Zoya, 8

*"I learned what 'finite' means. Money runs out so we should use it wisely.*

*I didn't know about the different types of cards before - now I do.*

*Always save your money for the future because you might really need it then."*
